Summary

View my portfolio here: <https://jdupuis825.github.io/NewPortfolio/>

Motivated Full-Stack Web Developer and CIS-trained Software Developer with a strong foundation in IT, systems thinking, and user-centered design. I hold an Associate Degree in Web Development, a Bachelor's in Full-Stack Web Development, and a Master's in Computer Information Systems with a concentration in Software Development.

With 18 years of leadership experience — including 9 years as a Store Manager and 4 years as a District Trainer — I bring a unique blend of technical skill, business understanding, and team-driven decision making. I currently support the Business Information Technology department as a Peer Tutor, helping students master HTML, CSS, JavaScript, PHP, and core development concepts.

I am passionate about building intuitive, efficient digital solutions and translating complex problems into clear, actionable technical requirements. I thrive in collaborative environments where technology, people, and process come together to create meaningful impact

Authorized to work in the US for any employer

Work experience

Overnight Grocery

Wegmans Food Markets • Johnson City, NY

September 2024 to Present

Execute overnight stocking and inventory processes with accuracy and efficiency, ensuring product availability and a clean, organized sales floor. Work collaboratively to meet nightly goals, adjust to changing priorities, and maintain strong communication across the team. Support operational excellence by following established processes, identifying opportunities for improvement, and consistently delivering high-quality results aligned with Wegmans standards. Demonstrate reliability, efficiency, and a strong commitment to delivering the exceptional experience Wegmans is known for.

Tutor

SUNY BROOME COMMUNITY COLLEGE • Binghamton, NY

November 2021 to Present

- Tutored and peer educated students in the Business Information Technology Department, enhancing student understanding in HTML/CSS/JavaScript
- Supported students in mastering Photoshop and digital media tools, resulting in improved project outcomes
- Guided students in mobile applications development and database (PHP), increasing proficiency in technical skills
- Instructed on spreadsheets (Excel), Microsoft Word, PowerPoint, and Access, boosting student productivity and grades
- Educated students on social media for professional use and campaign strategies, improving digital communication skills

Social Media Manager

Personal Trainer & Physique Competitor

October 2022 to January 2024

Social Media Manager

Custom Construction Company

June 2022 to January 2024

Store Manager Trainer

Claire's Store • Syracuse, NY

January 2016 to August 2020

- Recruited and hired qualified management candidates, strengthening district leadership teams
- Trained and coached new Store Managers to meet performance targets and comply with company policies, improving store performance
- Instructed new Store Managers on ear piercing procedures, ensuring compliance with legal and company guidelines
- Trained new Store Managers on analyzing sales reports and strategic problem solving, increasing sales effectiveness
- Motivated and encouraged all new Managers within the district, fostering a positive work environment
- Completed second interviews for all management candidates for other Store Managers within the district, ensuring quality hires
- Partnered with other Store Managers in the district to address questions and provide feedback, supporting team development
- Acted as team/district leader and led by example, promoting best practices across stores

Store Manager

Claire's • Johnson City, NY

November 2012 to August 2020

- Delivered positive sales performance by fulfilling customer needs and implementing company objectives through effective supervision of store associates
- Drove sales and superior customer experience, achieving performance targets (ADS, UPTs, SPLH) through sales and service programs
- Demonstrated product knowledge and fashion awareness, enhancing customer and associate interactions
- Implemented in-store presentation directives per company policy and timelines, optimizing product flows based on store layout
- Performed ear piercing procedures in compliance with company and legal guidelines, maintaining high safety standards
- Communicated company directives to store associates, ensuring alignment with organizational goals
- Created a positive store environment by fostering teamwork, recognition, and effective communication
- Recruited and hired qualified store associates, building a strong sales team
- Trained and coached store associates to meet performance targets and comply with company policies, improving staff effectiveness
- Directed operational activities to ensure compliance with company policies and procedures
- Managed controllable expenses (payroll, supplies, utilities), optimizing store profitability
- Implemented loss prevention practices, maintaining shrink percentages below company standards for 7 years
- Managed store inventory and ensured business-ready conditions through shipment processing and stock replenishment
- Analyzed sales reports and strategically problem solved, turning a \$250,000 deficit into a positive increase within 1 year
- Achieved a 98% store audit score in 2016 and 100% in 2018 and 2019, demonstrating operational excellence
- Maintained increases on store's LY numbers and company plan for 7 years
- Promoted to Store Manager Trainer in 2016 and nominated for Store Manager of the Year in 2015, 2016, 2019, and 2020
